## *Health and Wellness Success Story*

In a few sentences explain how Chiropractic and the knowledge of a wellness lifestyle that you received at Grant Chiropractic & Wellness Center, has changed your life.

I started seeing Dr. Bart after a recommendation from my mom. I was having pain in my neck & headaches. After the X-rays we found out that my neck was the minor part of my troubles. After a year of seeing Dr. Bart my neck pain is almost gone as well as my headaches. My hips & lower are beginning to stay in alignment, & I no longer have problems with my sciatica nerve.
