Health and Wellness Success Story

In a few sentences explain how Chiropractic and the knowledge of a wellness lifestyle that you received at Grant Chiropractic & Wellness Center, has changed your life.

Hi! I'm Sarah Erwin. I suffered from gastroenterestinal malities as well as scoliosis. I felt immediately better after my first adjustment. I had been ill gastroenterestinally (i.e. chronic pancreatitis, leaky gut) for almost two full years. It is amazing how everything in your body is connected.

Dr. Grant helped me get my life back.

I can eat, gain wright, and withstand physical activity. Dr. Grant's work has allowed me to pass my military medical review and stay in the Air Force!

Very Respectfully,

Sarah E. Erwin
