Health and Wellness Success Story

In a few sentences explain how Chiropractic and the knowledge of a wellness lifestyle that you received at Grant Chiropractic & Wellness Center, has changed your life.

With 20 years of going to Chiropractors under my belt, it was a welcome change to come to Dr. Bart and get the best adjustment I've ever had. He was able to move & manipulate things in my neck that hadn't been adjusted in years. My overall range of motion in my neck is significantly better & I don't have the feeling of discomfort as I once did.

I have a long way to go, but with regular adjustments, my fibromyalgia pain has decreased.

I look forward to my weekly visits & hope I can be on the right track to achieve overall health & wellness with Dr. Bart's help.

The staff is kind and courteous and I feel like a person not a patient.

Thanks,
Shandee fence
